

Wheelchair-accessible Services

► Introduction

Scheduled wheelchair-accessible buses operate on selected trips throughout the State Transit network. Over 35% of the Sydney Buses fleet is wheelchair-accessible and of the Newcastle Buses fleet, 25% are wheelchair-accessible. Accessible buses display the international blue and white wheelchair symbol on the front of the bus and on the door where the access ramp is located.

► High frequency Wheelchair-accessible corridors

Due to the number of services on major Sydney CBD streets, wheelchair-accessible buses operate very frequently and specific timetable information is not required. This also applies if you are travelling from the CBD to main network corridors - Military Rd, Pittwater Rd, Pacific Hwy, Epping Rd, Oxford St, Anzac Pde, Parramatta Rd, Victoria Rd. For other areas, reference to a timetable would be required to determine service levels and specific trip times.

► Wheelchair-accessible timetables

Wheelchair-accessible buses operate on scheduled trips on the routes listed below. Refer to the timetable for specific times. Accessible services are indicated in each timetable with the letter "a" or ♿ against the relevant trip. Depending on fleet availability, wheelchair-accessible buses may also operate on trips not specified as accessible.

► Routes
